

GISSA ANNOUNCES CAPEX STRATEGY FOR 2016

Saltillo, Mexico, March 23, 2016-- Grupo Industrial Saltillo, S.A.B. de C.V. (BMV: GISSA) ("The Company", "GIS", "GISSA" or "Group") announces its CAPEX budget for 2016 up to 1,865 million Mexican pesos, which would represent an increase of 47% in comparison to the amount available in 2015. In addition to GIS, this figure includes Evercast and GIS Ederlan, joint ventures in the auto parts sector, in which GISSA has a 70% and 50% share respectively.

These investments are specifically focused on boosting its auto parts and construction operations, which reported relevant increases in revenue and returns in 2015.

Regarding auto parts, we estimate an investment of 1,005 million Mexican pesos in Cifunsa, ACE, Evercast and GIS Ederlan, companies dedicated to foundry and machining auto parts. These investments will be dedicated to updating technology, process automation, expansions and quality control. This investment includes expansion of Evercast's capacity as already planned since the beginning of the project. Auto Parts sector's amount consider investments to be made in Europe for ACE plants.

Resources for approximately 760 million Mexican pesos will be dedicated to the Construction Sector. This amount will be allocated to the following projects: plant automation, expansions, operations control and modern digital decoration systems. With these resources, Vitromex (ceramic and porcelain tiles), Calorex (water heaters) and Fluida (Pipe Fitting systems) growth will be supported.

One hundred million Mexican pesos will be allocated to Cinsa, a business dedicated to the manufacture and sale of kitchen and table ware, mainly to modernize production processes.

José Manuel Arana - CEO of GIS commented: "The Group's financial strength and the trust in our Board of Directors and shareholders allow us to design a specific investment strategy to support production processes and develop capacities that enable us to serve our customers so we can be their preferred supplier".

José Manuel Arana added: "Additionally, we will continue exploring investment alternatives to accelerate our growth and maintain globalization and leadership efforts for our business ventures, as indicated by our vision."
