Consolidated Net Sales for the third quarter of 2017 increased to Ps. 4,968 million, 15.9\% higher than the same period of 2016. The increase resulted from higher cement and concrete volumes in the United States, and higher cement prices in both countries, which offset the effect of the appreciation of the peso in 3Q17.

For comparative purposes, sales in 3Q17, excluding the operations acquired last year, increased $1.2 \%$ in peso terms and $6.3 \%$ in dollars.

Nine months: Net sales for the first nine months of 2017 increased $24.3 \%$ to Ps. 12,829 million.

U.S. sales rose $18.4 \%$ to Ps. 3,917 million and represented $79 \%$ of GCC's consolidated net sales. The strong growth reflects higher cement sales volumes in the states of Texas, Colorado, New Mexico, and Nebraska, and higher ready-mix volumes in Texas. Overall, U.S. cement volumes increased $20.5 \%$, and concrete volumes increased $7.5 \%$.

Excluding the operations acquired last year, cement volumes decreased $2.8 \%$, while ready-mix volumes decreased 5.0\%.

Cement prices increased $6.1 \%$ in the quarter and concrete prices increased $0.1 \%$. Excluding the operations acquired last year, cement prices increased $4.6 \%$. and concrete prices rose $2.4 \%$.

The most dynamic segments in the regions where GCC operates were oil well drilling, nonresidential real estate and public-sector construction. U.S. sales expressed in dollars increased 24.3\% in 3Q17.

Excluding the operations acquired last year, U.S. sales increased 5.9\% in 3Q17.
Nine months: U.S. sales rose $29.2 \%$ to Ps. 9,783 million. Factors that contributed to growth were: a $6.0 \%$ increase in cement prices, a $28.1 \%$ increase in cement volumes, an $8.1 \%$ increase in concrete volumes, and the exchange rate effect.

Excluding the operations acquired last year, cement volumes increased 1.3\%, and ready-mix volumes decreased $7.5 \%$; cement prices increased $3.6 \%$ and concrete prices increased $2.6 \%$.
U.S. sales in dollar terms increased $27.4 \%$ in the first nine months.

Mexico sales rose $7.4 \%$ to Ps. 1,051 million and represented $21 \%$ of total sales. The increase was a result of a $15.8 \%$ increase in cement prices and a $16.3 \%$ increase in concrete prices, reflecting a better sales mix. The price effects were partially offset by decreases of $8.1 \%$ in cement volumes and $5.0 \%$ in ready-mix volumes, as a result of lower levels of activity in the industrial and commercial sectors that were partially offset by growth in the mining and residential markets.

Nine months: Mexico sales rose $10.9 \%$. This increase was a result of a $17.0 \%$ increase in cement prices and a $17.4 \%$ increase in concrete prices. These were partially offset by decreases of $4.2 \%$ in cement volumes and $5.4 \%$ in ready-mix volumes, as a result of lower levels of public sector, commercial and industrial activity.

Cost of Sales totaled Ps. 3,535 million in 3Q17 and represented $71.2 \%$ of sales, an increase of 1.8 percentage points. This was mainly due to an increase in total freight costs as a consequence of higher volumes of cement exported to the U.S., an increase in fixed production costs, and also higher depreciation charges from the assets acquired in the U.S. last year.

Cost of sales, excluding operations acquired last year, represented $70.4 \%$ of sales, a 1.0 percentage point increase.

Nine months: Cost of sales was the equivalent of $73.7 \%$ of sales, a 1.0 percentage point increase. The same factors that affected 3Q17 cost of sales were relevant for the nine months.

Excluding the operations acquired last year, cost of sales represented $73.2 \%$ of sales, an increase of 0.5 percentage points.

Operating Expenses totaled Ps. 383 million, a $13.7 \%$ increase, and were equivalent to $7.7 \%$ of sales, a decrease of 0.2 percentage points.

Operating expenses, excluding the operations acquired last year, totaled Ps. 323 million, a decrease of $4.1 \%$, and were equivalent to $7.5 \%$ of sales, a 0.4 percentage point reduction. The improvement resulted from lower depreciation and professional services expenses and the effect of the appreciation of the peso.

Nine months: Operating expenses increased $26.8 \%$, and represented $9.7 \%$ of sales, an increase of 0.2 percentage points, mainly due to increased depreciation charges from the assets acquired last year and the effect of the depreciation of the peso against the U.S. dollar, comparing the average exchange rate for the first nine months of 2017 to the average rate for the 2016 period.

Operating expenses, excluding the operations acquired last year, totaled Ps. 1,019 million, an increase of $4.1 \%$, and represented $9.2 \%$ of sales, a 0.3 percentage point reduction.

Operating Income before Other Expenses increased 7.8\% to Ps. 1,049 million.
Nine months: Operating income before Other Expenses increased 16.0\% to Ps. 2,135 million.
Other Expenses, Net were Ps. 3 million, compared to Ps. 23 million in 3Q16.
Nine months: Other expenses were Ps. 11 million, a decrease of $80.8 \%$ compared to Ps. 57 million in the prior year period, which included a non-recurring charge from the sale of fixed assets in the U.S.

Operating Income increased $10.1 \%$ to Ps. 1,046 million.
Nine months: Operating income totaled Ps. 2,124 million, an increase of 19.1\%.
EBITDA increased $14.2 \%$ to Ps. 1,421 million. The EBITDA margin represented $28.6 \%$ of sales, and was 0.4 percentage points lower than 3Q16.

EBITDA, expressed in dollars and excluding the operations acquired last year, increased 5.0\% to US $\$ 69.8$ million. The margin decreased 0.3 percentage points and represented $28.7 \%$ of sales.
U.S. operations generated 70\% of EBITDA, while Mexico operations generated 30\%.

Nine months: EBITDA increased $25.1 \%$ to Ps. 3,305 million, with a margin of $25.8 \%$, or 0.2 percentage points higher than the 2016 period. Nine month EBITDA, excluding the operations acquired last year, increased $7.1 \%$ to Ps. 2,828 million; the margin increased 0.1 percentage points to $25.7 \%$ of sales.
U.S. operations generated $65 \%$ of EBITDA, while Mexico operations generated $35 \%$ in the first nine months.

Net Financial Expenses totaled Ps. 276 million, an increase of $92.5 \%$. The increase was principally the result of increased debt for the acquisition of assets in the United States.

Nine months: Net financial expenses increased $111.1 \%$ to Ps. 877 million.
Income Taxes totaled Ps. 231 million, an increase of 10.9\%.
Nine months: Taxes decreased $2.7 \%$ to Ps. 279 million.
Consolidated Net Income was Ps. 548 million, an $8.8 \%$ decrease. This was the result of increases in Financial Expenses and Taxes that were partially offset by higher Operating Income before Other Expenses and a reduction in Other Expenses.

Nine months: Net income was Ps. 993 million.

Earnings per Share were Ps. 1.65 per share in the third quarter and Ps. 2.99 per share in the first nine months of 2017.

Free Cash Flow generated in the third quarter was Ps. 1,200 million, $4.8 \%$ less than the Ps. 1,260 million generated in 3Q16. The reduction was principally the result of a smaller reduction in working capital as a result of a higher level of accounts receivable from the acquisition, provisions and other items, and increased maintenance capex, which were partially offset by the increase in EBITDA and reduction in financial expenses paid.

Nine months: Free cash flow was Ps. 810 million, $24.9 \%$ below the 2016 level of Ps. 1,079 million. The decrease principally reflected increases in financial expenses, taxes, and working capital, which were partially offset by the increases in EBITDA and provisions and other items.
