

CORPORATE PRESENTATION Q2 2025

AUGUST 2025

SAFE HARBOR STATEMENT

This presentation has been prepared by GCC, S.A.B. de C.V. (together with its subsidiaries, “GCC”). Nothing in this presentation is intended to be taken by any person as investment advice, a recommendation to buy, hold or sell any security, or an offer to sell or a solicitation of offers to purchase any security.

Information related with the market and the competitive position of GCC was obtained from public sources that GCC believes to be reliable; however, GCC does not make any representation as to its accuracy, validity, timeliness or completeness. GCC is not responsible for errors and/or omissions with respect to the information contained herein. Due to rounding, numbers presented throughout this presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Forward Looking Statements

This presentation includes forward-looking statements or information. These forward-looking statements may relate to GCC’s financial condition, results of operations, plans, objectives, future performance and business. All statements that are not clearly historical in nature are forward-looking, and the words “anticipate,” “believe,” “expect,” “estimate,” “intend,” “project” and similar expressions are generally intended to identify forward-looking statements. The information in this presentation, including but not limited to forward-looking statements, applies only as of the date of this presentation. GCC expressly disclaims any obligation or undertaking to update or revise the information, including any financial data and forward-looking statements.

Any projections have been prepared based on GCC’s views as of the date of this presentation and include estimates and assumptions about future events which may prove to be incorrect or may change over time. The projections have been prepared for illustrative purposes only, and do not constitute a forecast. While the projections are based on assumptions that GCC believes are reasonable, they are subject to uncertainties, changes in economic, operational, political, legal or public health crises including COVID-19, and other circumstances and other risks, including, but not limited to, broad trends in business and finance, legislation affecting our securities, exchange rates, interest rates, inflation, foreign trade restrictions, and market conditions, which may cause the actual financial and other results to be materially different from the results expressed or implied by such projections.

EBITDA

We define EBITDA as consolidated net income after adding back or subtracting, as the case may be: (1) depreciation and amortization; (2) net financing expense; (3) other non-operating expenses; (4) taxes; and (5) share of earnings in associates. In managing our business, we rely on EBITDA as a means of assessing our operating performance. We believe that EBITDA enhances the understanding of our financial performance and our ability to satisfy principal and interest obligations with respect to our indebtedness as well as to fund capital expenditures and working capital requirements. We also believe EBITDA is a useful basis of comparing our results with those of other companies because it presents results of operations on a basis unaffected by capital structure and taxes. EBITDA, however, is not a measure of financial performance under IFRS or U.S. GAAP and should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Our calculation of EBITDA may not be comparable to other companies’ calculation of similarly titled measures.

Currency translations / physical volumes

All monetary amounts in this presentation are expressed in U.S. Dollars (\$) or US\$). Currency translations from pesos into U.S. dollars use the average monthly exchange rates published by Banco de México. These translations do not purport to reflect the actual exchange rates at which cross-currency transactions occurred or could have occurred. The average exchange rates (Pesos per U.S. dollar) used for recent periods are:

Q2-25	-	19.5281	Q2-24	-	17.2295
H1-25	-	19.9753	H1-24	-	17.1128

Physical volumes are stated in metric tons (mt), millions of metric tons (mmt), cubic meters (m3), or millions of cubic meters (mm3).

REFLECTION OF THE STRATEGY EXECUTION SINCE 2020

ONE OF THE
STRONGEST
PLAYERS IN
THE INDUSTRY

Deleveraging as soon as possible

Maintaining a healthy cash balance

Refinancing bank debt and notes, extending maturities and
reducing the average cost of debt

Debottlenecking project at the Samalayuca plant,
increasing cement production capacity by 200,000 mtons

Working on the Odessa cement plant expansion to increase
cement production capacity by more than 1 million mtons

Maintaining strict M&A criteria with a focus on value for purchase,
at a cost within strict pre-determined parameters

INVESTMENT HIGHLIGHTS

TICKER: BMV: GCC

- ① Leading position in attractive U.S. regional markets and in Chihuahua, Mexico
- ② Mexico operations also provide a strong base, and add operational flexibility with export capacity
- ③ Vertically integrated, with best in class production facilities and logistics
- ④ Increased free float and liquidity
- ⑤ Healthy balance sheet and strong free cash flow drive value creation

MORE THAN TEN YEARS OF OPERATIONAL AND FINANCIAL TRANSFORMATION

- Disciplined expansion
- Customer focus
- Operational excellence
- Prudent balance sheet management
- Increased shareholder value

GCC AT A GLANCE: A UNIQUE MARKET PRESENCE

- 6 MMT¹ cement production capacity
 - 3.5 MMT in U.S. + 2.5 MMT in Mexico
- #1 or #2 share in core markets
 - Landlocked states, insulated from seaborne competition
- 8 cement plants, 24 terminals, 2 distribution centers, 23 aggregates locations and 96 ready-mix plants
- 83 years of operation – 30 in the U.S.
- Listed on Mexican Stock Exchange: GCC*
- Included in: S&P/BMV IPC
FTSE Indexes
FTSE BIVA

KEY RESULTS LTM Q2 2025

US\$1,344 million sales – 74% U.S. / 26% Mexico

US\$476 million EBITDA – 81% U.S. / 19% Mexico

35.4% EBITDA margin

Net leverage of -0.48x

¹MMT = million metric tons

CEMENT AND READY-MIX CONCRETE OPERATIONS ACROSS THE “CENTER CUT” OF NORTH AMERICA

REGIONAL LEADER IN U.S. MID-CONTINENT MARKETS

WELL-POSITIONED TO CAPTURE U.S. GROWTH AND CONSTRUCTION INDUSTRY RECOVERY

- Leadership position in 14 contiguous states
 - CO, MN, MT, ND, NM, SD, UT and W.TX are our core markets, with 90% of U.S. sales
- No other producer competes with GCC across all our markets
- Diversified regional economies with low unemployment, offering clear upside to U.S. construction recovery
- Pricing upswing since 2013
 - Limited prospects for greenfield capacity expansion
 - Well-protected from seaborne imports
- Samalayuca, Chih. debottlenecking project (+0.2 MMT) finished in April 2023
- Odessa, TX plant ongoing expansion (+1.1 MMT)

U.S. INFRASTRUCTURE PLAN WILL BOOST THE CEMENT INDUSTRY

U.S. INFRASTRUCTURE PLAN

- The Infrastructure Investment and Jobs Act is a \$1.2 trillion infrastructure package. Included in the package is roughly \$550 billion in new surface transportation spending. The plan will take 5-years and combines transformational efforts in roads, bridges, railroads, and domestic building, among others, all requiring cement. Over \$280 billion was announced as of 3Q23
- 84% of GCC's EBITDA is driven by cement

MARKET

- PCA estimates that the plan will result in an increase in cement consumption of 46 million metric tons
- Projects began to materialize in 2024

LIMITED AVAILABILITY

- Cement availability pressured by high demand due limited supply
- GCC is well positioned to meet U.S. demand with Mexico cement plants and the Rapid City cement plant expansion
- Odessa plant expansion to be completed in 2025 to capture plan-related demand

PRICE INCREASES

- In 2025, we have increased cement prices one time
- In 2024, we increased cement prices one time, which represents an average of 6% increase
- Market dynamic could potentially drive the increase in cement prices

GCC IS THE LEADING PRODUCER IN THE STATE OF CHIHUAHUA, WITH SIGNIFICANT EXPORT CAPACITY

- GCC is sole producer of cement and the leading producer of ready-mix concrete in Chihuahua
- Close economic ties between Chihuahua and the U.S.
 - Cyclical recovery benefit
 - Foreign direct investment target
- Demand growth driven by the residential sector
- Flexibility to supply Texas and New Mexico demand from Samalayuca and Juarez plants
- Chihuahua plant supporting oil-well cement demand in Texas

- Extends GCC debt maturity profile
- Fund the full call redemption of the US\$260 million 5.250% notes due 2024
- Refinance upcoming bank debt maturities

SUSTAINABILITY LINKED BOND

REINFORCING GCC'S COMMITMENT TO DECARBONIZATION

First SLB from a cement company in the Americas, positioning GCC at the forefront of the industry's decarbonization strategy

SUSTAINABILITY PERFORMANCE TARGET

Carbon Intensity Reduction, measured as specific gross kilograms of CO₂ (Scope 1) emissions emitted per ton of cementitious material

Target validated by the Science-Based Target initiative (SBTi) and aligned with the well below 2°C curve

30.7% reduction from the 2015 baseline by year-end 2030

Emissions validated by third party

FACTORS THAT SUPPORT OUR TARGET

- Increase production of blended cements to reduce clinker factor
- Increase use of alternative fuels in kilns, especially the biomass fuel
- Optimize use of thermal energy in kilns
- Upgrade kiln equipment in cement plants
- Switch fuels between coal and natural gas
- Research carbon capture to adopt technology

GCC has engaged ISS to provide a Second Party Opinion (SPO) of the Framework, available in the ISS website

GCC IS MEMBER OF THE GLOBAL CEMENT AND CONCRETE ASSOCIATION

SUPPORTED BY SUSTAINABILITY INITIATIVES RESULTING IN DIRECT ECONOMIC AND ENVIRONMENTAL BENEFITS

ALTERNATIVE FUELS (AF) USAGE

AF USAGE BY PLANT

CO2 EMISSIONS

AF PROVIDE SIGNIFICANT COST ADVANTAGES

- Flexible fuel strategy delivered 12% of savings in 2024
- AF provided 9.4% of 2024 total thermal energy
- Rapid City plant began to use AF in 2023
- GCC expanded the Samalayuca plant's AF capability in 2023
- GCC received permit to co-process AF at Rapid City (2019)
- GCC expanded the Pueblo plant's AF capability (2018) and is developing a project to enhance its co-processing capacity

¹2015 is the baseline year for our SBTi validated CO2 emissions reduction target | 2024 results are pending to be validated by a third party

SUPPORTED BY SUSTAINABILITY INITIATIVES RESULTING IN DIRECT ECONOMIC AND ENVIRONMENTAL BENEFITS

% CLINKER FACTOR

LOWER CLINKER FACTOR TRANSLATES INTO LOWER CO2 EMISSIONS

- GCC reduced clinker factor to 83.7% in 2024
- Blended cement represented a 73% of cement production in 2024
- Chihuahua and Samalayuca plants began to use pozzolans in 2023
- Pueblo was fully converted to PLC in 2022
- Trident and Rapid City can produce PLC since 2022
- Samalayuca plant produces and exports PLC to the U.S. since 2022
- According with the ASTM Standard specifications for blended cements

BLENDED CEMENT¹ PRODUCTION

BLENDED CEMENT PRODUCTION BY PLANT

¹Blended cement refers to PLC (Portland Limestone Cement) and pozzolanic cement

LATEST ESG ACHIEVEMENTS

- GCC's CO2 emissions decreased to 689kg CO2 in 2024 from 706kg CO2 in 2023; a 2.4% record reduction
- 100%, 42% and 12% of the electricity consumed at the Odessa, Rapid City and Montana plants, respectively, came from renewable sources in 2024
- Pueblo and Rapid City cement plants earned the 2024 EPA Energy Star certification since 2018 and 2020, respectively
- GCC was awarded an "A-" rating in the Carbon Disclosure Project (CDP) 2024 climate change disclosure
- GCC was awarded a "B-" rating in CDP 2024 water security disclosure
- Tijeras plant won the PCA's Safety Innovation Award for pyroprocessing
- Odessa plant won the PCA's Chairman's Safety Performance Award
- Mexico Division was certified as a Great Place to Work® since 2015
- U.S. Division was certified as a Great Place to Work® since 2019
- GCC was awarded by the Mexican Center for Philanthropy since 2005
- CO2 emissions reduction targets (aligned to WB2C) were validated by the *Science Based Targets initiative* since 2023
- Our Scope 1 and 2 emissions data have been validated by a third party (KPMG) since 2022
- GCC released its first Task Force on Climate-related Financial Disclosures (TCFD) Report in 2023
- GCC's CEO, Enrique Escalante, was elected to GCCA's board of directors in 2022
- GCC is part of GCCA's research network, Innovandi

ENRIQUE ESCALANTE

CEO Q2 2025 QUOTE

Enrique Escalante, GCC's Chief Executive Officer, commented: *"While the second quarter was more challenging than anticipated, GCC's resilience has been demonstrated in the past, and this year will be no exception. Our company-wide cost and expense optimization plan reflects our commitment to protecting profitability through the remainder of the year."*

Enrique continued, *"We remain focused on what we can control and confident that our disciplined execution, along with our long-term strategy, will enable us to navigate short-term pressures and continue creating sustained value for our stakeholders."*

Final cash balance	826.9	879.4	-6.0%	826.9	879.4	-6.0%
FCF conversion rate	41.1%	21.7%		31.7%	32.6%	

Increased free cash flow in Q2-25 reflects:

- Lower working capital requirements
- Lower maintenance CapEx
- Lower cash taxes
- Lower EBITDA generation
- Lower interest income

Decreased free cash flow in H1-25 reflects:

- Lower EBITDA generation
- Lower interest income
- Lower accruals payment
- Lower working capital requirements
- Lower maintenance CapEx

* Excludes growth and strategic capital expenditures

** Free cash flow conversion rate = free cash flow after maintenance CapEx / EBITDA

BALANCE SHEET (MILLION DOLLARS)
