

CORPORATE PRESENTATION Q1 2021

MAY 2021

SAFE HARBOR STATEMENT

This presentation has been prepared by GCC, S.A.B. de C.V. (together with its subsidiaries, "GCC"). Nothing in this presentation is intended to be taken by any person as investment advice, a recommendation to buy, hold or sell any security, or an offer to sell or a solicitation of offers to purchase any security.

Information related with the market and the competitive position of GCC was obtained from public sources that GCC believes to be reliable; however, GCC does not make any representation as to its accuracy, validity, timeliness or completeness. GCC is not responsible for errors and/or omissions with respect to the information contained herein. Due to rounding, numbers presented throughout this presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Forward Looking Statements

This presentation includes forward looking statements or information. These forward-looking statements may relate to GCC's financial condition, results of operations, plans, objectives, future performance and business. All statements that are not clearly historical in nature are forward-looking, and the words "anticipate," "believe," "expect," "estimate," "intend," "project" and similar expressions are generally intended to identify forward-looking statements. The information in this presentation, including but not limited to forward-looking statements, applies only as of the date of this presentation. GCC expressly disclaims any obligation or undertaking to update or revise the information, including any financial data and forward-looking statements, as well as those related to the impact of COVID-19 on our business, suppliers, consumers, customers and employees; disruptions or inefficiencies in the supply chain, including any impact of COVID-19.

Any projections have been prepared based on GCC's views as of the date of this presentation and include estimates and assumptions about future events which may prove to be incorrect or may change over time. The projections have been prepared for illustrative purposes only, and do not constitute a forecast. While the projections are based on assumptions that GCC believes are reasonable, they are subject to uncertainties, changes in economic, operational, political, legal or public health crises including COVID-19, and other circumstances and other risks, including, but not limited to, broad trends in business and finance, legislation affecting our securities, exchange rates, interest rates, inflation,

foreign trade restrictions, and market conditions, which may cause the actual financial and other results to be materially different from the results expressed or implied by such projections.

EBITDA

We define EBITDA as consolidated net income after adding back or subtracting, as the case may be: (1) depreciation and amortization; (2) net financing expense; (3) other non-operating expenses; (4) taxes; and (5) share of earnings in associates. In managing our business, we rely on EBITDA as a means of assessing our operating performance. We believe that EBITDA enhances the understanding of our financial performance and our ability to satisfy principal and interest obligations with respect to our indebtedness as well as to fund capital expenditures and working capital requirements. We also believe EBITDA is a useful basis of comparing our results with those of other companies because it presents results of operations on a basis unaffected by capital structure and taxes. EBITDA, however, is not a measure of financial performance under IFRS or U.S. GAAP and should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Our calculation of EBITDA may not be comparable to other companies' calculation of similarly titled measures.

Currency translations / physical volumes

All monetary amounts in this presentation are expressed in U.S. Dollars (\$) or US\$. Currency translations from pesos into U.S. dollars use the average monthly exchange rates published by Banco de México.

These translations do not purport to reflect the actual exchange rates at which cross-currency transactions occurred or could have occurred.

The average exchange rates (Pesos per U.S. dollar) used for recent periods are:

Q1-21	-	20.3269	2020	-	21.4916
Q1-20	-	19.9138	2019	-	19.2594

Physical volumes are stated in metric tons (mt), millions of metric tons (mmt), cubic meters (m3), or millions of cubic meters (mm3).

REFLECTION OF THE STRATEGY EXECUTION SINCE 2016

ONE OF THE
STRONGEST
PLAYERS IN
THE INDUSTRY

Deleveraging as soon as possible

Maintaining a healthy cash balance

Refinancing bank debt and notes, extending maturities and
reducing the average cost of debt

Swapping non-integrated ready-mix assets for Montana
cement plant without increasing debt

Successfully completing Rapid City cement plant expansion

Maintaining strict M&A criteria with a focus on value for purchase,
at a cost within strict pre-determined parameters

ACTION PLAN TO MITIGATE COVID-19 IMPACT

PEOPLE AND BUSINESS CONTINUITY

- Developed specific health and safety protocols for each of GCC's operations
- Enacted "work from home" protocols for the majority of employees
- Established skeleton crews wherever possible
- Ensured that every employee receives their full salary and benefits
Continuously monitoring and assessing market demand, economic fundamentals and government regulations
- Established contingency plans to ensure a safe operation and uninterrupted supply to customers, supported by GCC's robust manufacturing and distribution network
- Working closely with cement and concrete associations in both Mexico and the U.S.

CASH, LIQUIDITY AND BALANCE SHEET

- Cost and expense reductions throughout the organization
 - Variable costs and distribution efficiencies
 - Achieved US\$24 million in savings during 2020
e.g. hiring freeze, not filling vacant positions and limiting external service providers
- Deferred all non-essential projects
- Cash and equivalents totaled US\$557 million in Q1-21
- Net debt/EBITDA decreased to 0.22x as of March 2021
- No significant debt maturities in 2021
- 2024 US\$260 million bond is callable in June
- Strong balance sheet, result of the strategy of maintaining an efficient and prudent capital structure

INVESTMENT HIGHLIGHTS

TICKER: BMV: GCC

- ① Leading position in attractive U.S. regional markets and in Chihuahua, Mexico
- ② Mexico operations also provide a strong base, and add operational flexibility with export capacity
- ③ Vertically integrated, with state of the art production facilities and logistics

CEMENT AND READY-MIX CONCRETE OPERATIONS ACROSS THE “CENTER CUT” OF NORTH AMERICA

REGIONAL LEADER IN U.S. MID-CONTINENT MARKETS

WELL-POSITIONED TO CAPTURE U.S. GROWTH AND CONSTRUCTION INDUSTRY RECOVERY

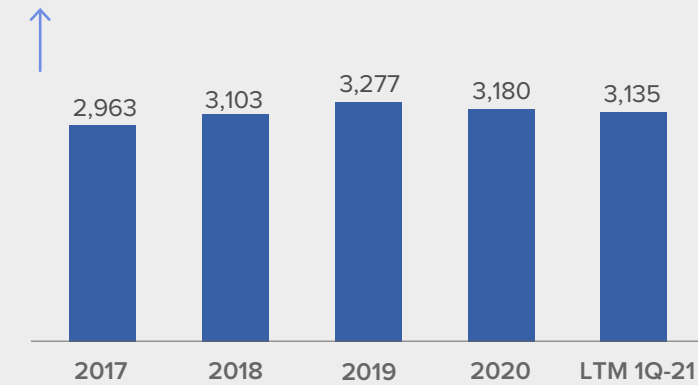

- Leadership position in 16 contiguous states
 - CO, MN, MT, ND, NM, SD and W.TX are our core markets, with 85% of U.S. sales
- No other producer competes with GCC across all our markets
- Diversified regional economies with low unemployment, offering clear upside to U.S. construction recovery
- Pricing upswing since 2013
 - Limited prospects for greenfield capacity expansion
 - Well-protected from seaborne imports
- Rapid City, SD plant expansion (+ 0.4 MMT) increased U.S. cement capacity to 3.5 MMT per year (finished 4Q18)
- Trident, MT cement plant acquisition (June 2018)

ALTERNATIVE FUELS (AF) USAGE AND CO2 EMISSIONS REDUCTION¹

ALTERNATIVE FUELS USAGE (MT)

AF USAGE BY PLANT

AF PROVIDE SIGNIFICANT COST ADVANTAGES

- In 2020, AF provided 11.5% of total thermal energy and reduced CO2 emissions by 10%
- In 2018, GCC saved more than US\$4 million using AF
- On average, AF costs are 50% lower than coal costs
- In 2019, GCC received permit to co-process AF at Rapid City
- In 2018, GCC expanded the Pueblo plant's AF capability
- In 2017, GCC secured a flexible fuel-permit for Odessa
- Tijeras fuel permit is in the final stages

¹ 2005 is the baseline year for CO2 emissions reduction

LATEST ESG ACHIEVEMENTS

- GCC joined the *Science Based Targets initiative* to reduce CO2 emissions
- Three long-term agreements were signed with renewable energy suppliers covering approximately 20%, 100% and 50% of the electricity consumed at Mexico's operations, Odessa plant and Rapid City plant, respectively
- GCC joined GCCA's research network, Innovandi
- Use of biomass fuel at the Juarez plant reduced CO2 emissions by 38%
- Rapid City has permanently shut down two wet kilns
- Two U.S. cement plants earned EPA Energy Star certification
- Pueblo plant earned the Energy Star certification for second year in a row
- Rapid City plant earned the Energy Star certification
- Pueblo Plant won the PCA's Chairman's Safety Performance Award
- PCA recognized Odessa plant for outstanding environmental efforts
- Zero fatalities
- 11% reduction in lost time incident frequency and 31% reduction in severity rate (2020)
- GCC Foundation focuses on sustainable living projects throughout Chihuahua
- Mexico Great Place to Work® ranking increased to 14th from 30th
- U.S. Division was certified as a Great Place to Work®
- 16th consecutive year awarded Mexican Center for Philanthropy

ENRIQUE ESCALANTE

CEO Q1 2021 QUOTE

Enrique Escalante, GCC's Chief Executive Officer, commented: *"GCC started 2021 with strong financial performance - increasing EBITDA, free cash flow and EBITDA margin. Our results reflect momentum in the industry and show early signs that we are entering into a new phase of the industry's cycle with a stronger demand for most of our products. Therefore, we will focus our efforts in producing cement to supply pent-up demand."*

Mr. Escalante continued, *"Our backlog and the overall market trends of our business are encouraging in the U.S. and Mexico. Both countries are emerging from tough and uncertain times into brighter months ahead. Our focus continues on maximizing production, improving plant reliability, and optimizing our logistics network to take advantage of the pent-up demand we are experiencing."*

Mexico	6.0%	3.3%

Concrete sales

U.S.	-33.0%	4.3%
Mexico	8.0%	-6.6%

- The decrease in cement sales volumes was primarily due to a tough comparison in oil well cement volumes and challenging weather conditions.
- Excluding the oil well market, U.S. cement volumes would have increased by 5.9% as sales were supported by strong shipments during the first quarter of 2021.
- The state of Chihuahua continues a V-shaped recovery.
- Continued demand from industrial warehouse construction, mining & self-construction projects, and the reactivation of several public works projects in the city of Juarez

U.S. SALES

The most dynamic market segments during the quarter were housing, infrastructure, industrial warehouse construction and wind farm projects in the Upper Midwest.

MEXICO SALES

Mexico sales during the quarter were primarily driven by demand related to industrial warehouse construction, mining projects and self-construction, as well as the reactivation of public works.

Depreciation of the Mexican peso against the U.S. dollar reduced Mexico's sales by US\$1.8 million in the quarter.

Excluding the FX effect, Mexico's sales would have increased 10.5% in Q1-21.
